BEST-IN-CLASS
TECHNOLOGY
WITH P&G**

PROCESS & ENGINEERING CAREER

JOB NUMBER ENG00001945

P&G is a leading global consumer goods company whose winning brands are built around the model of innovation. Whatever your passion is, we want to ignite your potential to become your very best self. We hold true to our purpose, values and principles as we seek to make a difference in the world around us. You will engage in meaningful work that will touch the lives of others and have a real impact. Everything at P&G starts with understanding - understanding our consumers and our employees as we innovate to improve lives now and for generations to come.

We are looking for **Engineers (m/f)** in our **European Process & Engineering Babycare hub in Euskirchen** (near Cologne & Bonn), in our **FemCare and HomeCare hub in Crailsheim** (BW) and in our hub in **Kronberg** (near Frankfurt).

Our Engineers are responsible for inventing, developing, reapplying and delivering breakthrough processes and packing technologies that provide winning products for consumers around the world. Dealing with a multitude of current and future products, Procter & Gamble Engineers have the technical curiosity and knowledge to develop new approaches to big challenges. Your work will require creativity, innovation, teamwork and leadership. You will use cutting edge technologies with multi-disciplinary and highly professional teams across the Company and work seamlessly with R&D and Manufacturing. Every role provides a high level of autonomy as well as great leadership opportunities.

What you can expect from us

- Meaningful and exciting projects from Day 1 in a truly international, multi-functional team
- Training-on-the-job and a large portfolio of personal development opportunities
- Excellent career perspectives
- Competitive salary and social benefits (e.g. company pension plan, christmas and vacation bonus, stock purchasing programs, flexible working times, company shop, etc.)

You are what we are looking for if you have

- Completed a degree in an Engineering discipline such as Electrical- / Mechanical Engineering or Mechatronics
- Great academic results coupled with strong social engagement
- A strong ability to analyse and solve challenges
- Excellent communication skills and team spirit
- Very good English skills
