INTERNSHIP IN INFORMATION TECHNOLOGY (M/F)

JOB NUMBER: IT 00000978

Whatever your passion is, we want to ignite your potential to become your very best self.

Our IT professionals are experts in combining information, technology and business knowledge to create innovative solutions that change the way P&G does business.

We are looking for interns to join our Information Technology organization hub near **Frankfurt am Main**. Every role provides the opportunity to lead a project in one of the following areas:

Application & Integration -Strategy, architecture, development, implementation and governance of the business applications and integrations used for Supply Chain Management, Manufacturing, Engineering and R&D.

Data & Analytics - Strategy, architecture, management and governance of the Company's data, as well as application of advanced analytics and big data methods to drive unique and actionable insights about our consumers and customers.

Infrastructure - Strategy, architecture, governance and management of the hardware, software platforms and networks needed to enable the Company's applications and information flow.

We are offering:

- 3-6 month internships, starting throughout the year
- Responsibility as of Day 1 in projects with real business impact
- Tailored onboarding plan, coaching and mentoring
- Collaboration in multi-functional and global teams
- Growth opportunities in IT, as well as Business and Management competencies
- Monthly compensation of 1,400 - 1,550

We are looking for:

- Bachelor/Master students with good academic results in Computer Science, Informatics, Management/Business Information Systems, Industrial Engineering, Operations Research or similar
- Strong leadership and communication skills
- Analytical and problem solving abilities
- Good command of the English language is a must. German is a plus
